### A Reason For Pre-Arrangement

- *A Shared Decision*

The choice of a memorial reflects your tastes and wishes and is an appropriate decision to make together.

- *A Personal Choice*

Making sure that it reflects what you want rather than forcing others to make this very personal decision for you.

- *No Guess-Work Required*

Forcing your family to guess what you would have wanted will always exasperate an already stressful situation.

### A Reason For Pre-Arrangement (cont'd)

- ***The Inflation Factor***

The inevitability of price increases makes buying now a smart money management solution.

- ***The Insurance Factor***

Purchasing your memorial now means the cost of the memorial will not come from insurance money intended for the needs of the family.

- ***A Lifted Burden***

Knowing that your memorial needs have been taken care of allows you to enjoy the peace of mind that comes from the realization that you have released loved ones from a burden based on this very important decision.

- ***Mission Accomplished***

Pre-arrangement assures your memorial will be in place no matter what unforeseen circumstances may arise.
